## CAREER OBJECTIVE

Proficient in Python (Core and Agentic AI) and Flutter, I am seeking a challenging role where I can contribute to the development of innovative software and application solutions. With a strong foundation in programming and a passion for building intelligent systems, I aim to grow professionally through collaborative work, continuous learning, and real-world problem solving in a dynamic tech-driven environment.

## EDUCATION

|                                                                                                                                                          |                            |
|----------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------|
| <b>Vellore Institute of Technology, Chennai</b><br><i>B. Tech – Electronics and Computer Engineering, 8.47 CGPA</i><br><i>NCC 'C' certificate holder</i> | <b>Sep 2021 – Sep 2025</b> |
| <b>Sainik School Amaravathinagar</b><br><i>Class X, Senior Secondary, 81%</i><br><i>Class XII, PCM with Computer Science, Higher Secondary, 81.8%</i>    | <b>Jun 2014 – Jun 2021</b> |

## SKILLS

**Programming Languages:** Python, Java, Dart, C, C++, HTML, CSS, R  
**Frameworks:** Flutter, Django, Flask, Selenium, Agno  
**Developer Tools:** VSCode, RStudio, Linux, Firebase, Keil Studio Cloud, Git, Postman  
**Databases:** MySQL, SQLite3, Firebase Storage, MongoDB

## EXPERIENCE

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                         |
