CAREER OBJECTIVE

Proficient in Python, Java and Flutter, I am seeking a challenging role where I can contribute to the development of innovative software and application solutions. With a strong foundation in programming and a passion for building intelligent systems, I aim to grow professionally through collaborative work, continuous learning, and real-world problem solving in a dynamic tech-driven environment.

EDUCATION

Vellore Institute of Technology, Chennai <i>B. Tech – Electronics and Computer Engineering, 8.47 CGPA</i> <i>NCC 'C' certificate holder</i>	Sep 2021 – Sep 2025
Sainik School Amaravathinagar <i>Class X, Senior Secondary, 81%</i> <i>Class XII, PCM with Computer Science, Higher Secondary, 81.8%</i>	Jun 2014 – Jun 2021

SKILLS

Programming Languages: Python, Java, Dart, C, C++, HTML, CSS, R
Frameworks: Flutter, Django, Flask, Selenium, Agno, Springboot
Developer Tools: VSCode, RStudio, Linux, Firebase, Keil Studio Cloud, Git, Postman
Databases: MySQL, SQLite3, Firebase Storage, MongoDB

EXPERIENCE

Systems Engineer (C1), TCS - Completed the Initial Learning Program (ILP) that focused on Java, Spring Boot, TypeScript, and Angular. - Developed a full-stack web application using Spring Boot REST APIs and Angular frontend, applying MVC architecture, JPA/Hibernate, and Agile development practices.	Nov 2025 – Present
AI Intern Lead at 2CentsCapital, UAE AI Intern at 2CentsCapital, UAE - Worked on existing React framework to integrate seamless streaming interface with minimal latency via API calls to the agentic AI framework. - Developed and deployed AI agents using Agno's AgentOS for customer support (ticket/email automation) and market research by integrating APIs like Yfinance, GTN and ExaTools. - Spearheaded optimization of market research agent, improving processing efficiency by ~67%, enhancing data insights and responsiveness, and also reducing latency of response.	Oct 2025 – Nov 2025 Sep 2025 – Oct 2025
Intern at iBrowseJobs, Bengaluru Web Developer: Developed landing page and course-related pages Course Content Creator: Created videos for students to learn topics based on Flutter and Java.	Aug 2023 – Oct 2023
Samsung PRISM Worklet and progress: Creation of near and far-field impulse response database for spatial audio research and validation using SOTA localization algorithms. Contributed to spatial audio research by collecting and organizing numerous audio samples for analysis.	Nov 2023 – Mar 2024

CERTIFICATIONS

HackerRank (Python, Java, SQL, Problem Solving), Spoken Tutorial – IIT Bombay (Python, Java, Advanced C/C++, PHP & MySQL), NPTEL (Google Cloud Computing Foundations, Forests and their Management, Wildlife Ecology)

PROJECTS AND AWARDS

Construction Quality Report Application - A personal project made to display a concise report on the construction works and issues present in the progress of a construction site. - Leveraging the use of Flutter, a Dart-based framework to build the application.	
Fruit Maturity Analysis using NIR imaging - A capstone project for final year that is based on using near-infrared imaging to detect the maturity of apples. - Utilising Python, computer vision and machine learning to solve the real-world problem in a conscientious way.	Jan 2025 – Apr 2025
Sentiment Analysis on YouTube Comments: A project for Data Analytics Course Conducted sentiment analysis on YouTube comments using Python to extract insights on audience perception	Jun 2023 – Jul 2023
School Band Vice Captain 2019-20: - Lead the school band (Brass band category) in IPSC Band competition 2019-20, securing the 2nd position - Best Solo Performance award	Nov 2019
